

NEWS FLASH

National Accounts / Brokers

October 2020

As the Fall season officially begins with cooler temperatures and pumpkin spice EVERYWHERE, we have some exciting news at Meridian Waste. Our Raleigh, NC market now provides front load commercial services along with our roll off service (both temporary and permanent). We also intend to offer front load commercial services in our Knoxville, TN, market in the near future.

We have opened new zip codes for services in Augusta, GA, Richmond, VA, and St. Louis, MO, and we're still providing great service in Jacksonville, FL.

To always know our most updated zip code service listing, you can visit our website at <https://www.MeridianWaste.com/National-Accounts/> or email me at GSides@MeridianWaste.com.

I would also like to take this opportunity to thank all the truly hard-working garbage gentlemen and ladies in our profession. This year's pandemic has heightened the value of the term "essential worker," and I am proud to be in the presence of such a great team of people and an industry that literally we couldn't function without! It takes one great team working towards the same goals to make an operation a success, and we feel like we have one of the very best teams here at Meridian Waste. If you feel like one or more of our employees has gone above and beyond with excellent customer care, please share your experience with us via our [Shout Out](#) form. Not only does the team member receive a CEO signed certificate shared in front of his or her peers, he or she also receives a cash gift card to help celebrate the accolades. It would also mean a lot to us if you could leave us a review on the applicable Meridian Waste facility page on our Google Business websites.

Thank you for your business, and we hope we can grow with you, our partners, especially during these difficult and uncharted times.

Thank you,

A handwritten signature in blue ink, appearing to read "George Sides".
